Summary

I build sourcing infrastructure: AI sourcing tools, ATS analytics and metrics that make hiring decisions defensible — and I still write the outreach people actually reply to.

Experience

Talent Sourcing Lead

2026 — now

Lead a 5-person sourcing team for dedicated R&D client teams. Built an output-based bonus model, an analytics stack on Ashby (a custom MCP server plus live dashboards) and a library of AI sourcing tools that cut prep time across the team.

Senior Talent Sourcer · Playson

2023 — 2026

Led the migration from Recrutee to Ashby, wrote the team wiki, ran six workshops for the TA team and automated reporting.

Global Talent Sourcer · Spendesk

2021 — 2023

Mapped 5,000+ tech companies across Germany, France and the UK; built hiring dashboards in Gem; recorded 50+ training videos; led the job-description revamp.

Talent Sourcing Lead · iDeals

2018 — 2021

Built the company's first in-house sourcing function and team, rolled out Lever and Gem, and lifted reply rate from 15% to 48% and email discoverability from 30% to 90%.

Sourcing & recruiting · Preply, Attendify and agencies

2014 — 2018

Full-cycle and engineering sourcing; 13 hires personally sourced at Preply.

Toolkit

- ATS & CRM: Ashby, Lever, Gem, Recrutee
- Sourcing: Boolean & X-ray search, market mapping, AI sourcing workflows
- Analytics: funnel metrics, per-sourcer conversion, live hiring dashboards
